Discover Cordoba, the city that was once the light of the world as the capital city of the Caliphate kingdom. Cordoba has a huge cultural and historical legacy.

We will visit the beautiful Mosque-Cathedral of Cordoba, declared UNESCO World Heritage Site and considered the most important monument of the entire Western Islamic art. Its bright golden mosaics and an endless row of arches of red and white produce a visual delight.

We will also see the Alcazar of the Reyes Cristianos and the Jewish Quarter with its narrow streets, white houses full of flowers and the only synagogue in Andalucía.

You will then be taken on a panoramic tour on the way to the city center where you will have some free time to walk, enjoy a traditional meal or do some shopping.
